THE WHARTON GLOBAL YOUTH PROGRAM

OUR PURPOSE

The Wharton Global Youth Program introduces business and finance education to high school students around the world, extending the reach of the world class education provided by the Wharton School at the University of Pennsylvania. Our goal is to educate, inform and inspire pre-collegiate students to explore business practices, analyze the world’s complex challenges, and take the first steps in becoming leaders who will transform the global economy.

Dear Reader,

The report before you tells the story of connections. Wharton Global Youth in the past year was more than just connecting Wharton to high school students; it was about connecting the strengths of the Wharton community to new populations. To accomplish this, the Wharton Global Youth staff continued our ongoing work to forge relationships across the Wharton School.

The Wharton community is much more than we find on the Philadelphia and San Francisco campuses. Wharton exists in our alumni and now in high schools worldwide. Through the connections Wharton Global Youth fosters in its programming, competitions and content, high school-age students, their teachers, and their communities are developing deeper connections to business education.

In this annual report, you will read the stories of those connections. We have worked to document the students and educators learning from and with Wharton in Philadelphia, San Francisco, Cambridge, online and in high schools across the globe. It was another great year of growth for Global Youth, and the next one has already begun. We hope you will keep connecting with us.

All the best,
Eli J. Lesser | Senior Executive Director

TABLE OF CONTENTS

4 Highlights from the Year
6 Summer On-Campus Programs
7 Summer Online Programs
8 Summer Location-based Programs
10 Wharton Pre-Baccalaureate Program
11 Wharton Embedded Pre-Baccalaureate Program
13 Global High School Investment Competition
17 Meet Our Instructional Staff
18 Global Youth Educational Content
20 Wharton Community Collaborations
25 Alumni Collaborations
HIGHLIGHTS FROM THE YEAR

Wharton Global Youth By the Numbers

1,286  Students enrolled in seven Philadelphia campus programs (6.8% increase)

90  Students enrolled in inaugural Cambridge Strategy and International Management program

728  Students enrolled in summer online certificate programs

25  Students participated in more than one summer program

61  Countries represented among our summer students

168  Penn undergrad and graduate students hired to support our academic programs and competitions

7,558  Student competitors in the 2022-2023 Wharton Global High School Investment Student Competition (8.3% increase)

903  Educator advisors supporting students in our Global High School Investment Competition

21%  Increase in summer applicants

34%  International students

56% Open rate (27% increase)
It’s important for leaders to understand the history of these kinds of things, because it is often upheld from the top...If leaders don’t understand what they could be preventing, then they won’t know how to act against it in the future.

— Adia D., New Jersey, USA

Leadership in the Business World introduces rising high school seniors to the full breadth of Wharton’s top-notch undergraduate business education and improves students’ leadership, teamwork and communication skills.

NEW! Product Design Academy teaches design thinking and product development. Through this studio-based program, students learn how to identify customer needs, generate product concepts, prototype, and design a physical product to showcase using The Studios @ Venture Labs.

SUMMER ON-CAMPUS PROGRAMS

Wharton Global Youth in Philadelphia
In the summer of 2023, Global Youth welcomed more than 1,200 high school students back to Wharton’s Philadelphia campus to learn with us in our dynamic two-week and three-week business education programs.

1,286 Students
7 Programs
110 Returning students from 2022

Our On-campus Programs at a Glance
Data Science Academy teaches essential data-science techniques, such as data visualization and wrangling, and also exposes students to modern machine learning methodologies, which are building blocks for today’s AI field.

Essentials of Entrepreneurship provides an immersive introduction to creating a new venture. Students learn how to launch a successful startup and study the core techniques in the areas of user research, opportunity testing, minimum-viable-product developing, marketing, scaling and exiting.

Essentials of Finance provides an introduction to the fundamentals of finance, as well as opportunities to explore finance beyond the stock market, including venture capital, corporate valuation and alternative investments.

Moneyball Academy explores the world of sports analytics with a focus on the fundamentals of statistical thinking and programming languages. Students use the techniques applied by analytics professionals to make sports-related discoveries and data-informed decisions.
In the Future of the Business World program, I was able to expand my entrepreneurial thinking to create my own business. The process of design-making and speaking with other students from around the world influenced me to potentially create my own product under the brand name, Streetwear.

— Axel P., Massachusetts, USA

Future of the Business World 2023

I enhanced my communication and research skills. Despite being online, the lessons and activities were incredibly engaging and kept my attention all the way through.

— Casso P., Guangdong, China

Future of the Business World 2023
I believe that in order to achieve a level of environmental sustainability that is desired to reverse the effects of climate change...simply promoting more eco-friendly research and development (R&D), as well as disincentivizing firms in industries with large carbon footprints from continuing what they’re doing seems a little unrealistic.

Jason P., a student from Dubai, United Arab Emirates, who attended Global Youth’s July 2023 Cambridge, UK program, joined Round 4 of our virtual Comment & Win contest in August to reflect on our article, Does Business Have an Ethical Responsibility to Help Save Our Planet?

SUMMER LOCATION-BASED PROGRAMS

Exploring Business and Culture
The growth of our Global Youth community inspired us to design unique opportunities for high school students to explore the intersection of culture and business. In July 2023, Global Youth launched Strategy and International Management, our first program abroad, hosted at Murray Edwards College at the University of Cambridge, UK. This was an expansion of our location-based programs, which began in 2022 with Innovation and Startup Culture (previously Essentials of Innovation) held at Wharton San Francisco.

Our Location-based Programs at a Glance

San Francisco, CA: Innovation and Startup Culture
Set on Wharton’s San Francisco Campus, our two-week Innovation and Startup Culture program introduces high school students to the world of new-venture creation. They learn the strategies that successful entrepreneurs use to generate new ideas and develop them into disruptive high-growth ventures.

NEW! Cambridge, UK: Strategy and International Management
This two-week program acquaints students with the core concepts of management and international business. Participants prepare university-level business cases that introduce a company’s management challenges and invite students to propose solutions—all within England’s vibrant hub of innovation and research.

Our Students Stay Connected

Jason P., a student from Dubai, United Arab Emirates, who attended Global Youth’s July 2023 Cambridge, UK program, joined Round 4 of our virtual Comment & Win contest in August to reflect on our article, Does Business Have an Ethical Responsibility to Help Save Our Planet?
On Location in Cambridge with Sara Jane McCaffrey

What was it like for our first two cohorts of high school students attending Strategy and International Management in Cambridge, UK this past summer? Global Youth sat down with Dr. Sara Jane McCaffrey, the instructor of our newest location-based program, to get the scoop on all things Cambridge — from Porter’s Five Forces, case studies, and value-chain analysis, to an eye-opening visit to BMW’s Mini Cooper plant in Oxford, where students discovered first-hand the impact of Brexit. We also talked about the program’s final case competition, where one student team conducted some impressive hot-pot research. Read more in our newsroom.

We presented theory and frameworks in class, and then we looked at a particular firm as a case study — not necessarily because it was illustrative of doing all the right things, but rather, to give students a mechanism to learn what the options are and how decisions are made.

— Dr. Sara Jane McCaffrey, Cambridge Program Instructor
Being a part of the Global Youth Program allowed me to evolve as an innovative thinker, expand my knowledge beyond the theory of business, and dive deeper into the foundations and subfields of it through the coursework provided within each class. Best of all, I was able to form stellar connections with students from across the globe, as well as talented professors and coordinators... in a friendly environment during a time that worked best for me as a part-time employee.

— Viktoria B., Pennsylvania, USA

Pre-baccalaureate Program 2023, Behavioral Economics

A Case Study in Viral Marketing

“In the past, I would post pictures of our dishes, but I didn’t think about how to make my ideas stick. I learned in the Pre-baccalaureate Program that there is a lot of psychology behind marketing.”

Discover how Ietsu U., a Pre-baccalaureate student in 2022, used his new viral marketing skills to generate buzz around his family’s ramen noodle restaurant. Read more in our newsroom.

WHARTON PRE-BACCALAUREATE PROGRAM

Earning College Credit in High School

The Wharton Pre-baccalaureate Program is an academically intensive dual-enrollment opportunity for exceptional high school juniors and seniors to enroll in online courses spanning the breadth of Wharton’s business-education curriculum and to earn college credits.

Our Courses at a Glance

BEPP 0001: Introduction to Behavioral Economics New
HCMG 0001: Introduction to Health Economics
FNCE 0001: Introduction to Financial Markets & the Global Economy
FNCE 0002: Essentials of Personal Finance
OIDD 0001: Prescriptive Analytics
STAT 0001 & 0002: Introduction to Statistics and Data Science
MGMT 0001: Principles of Management New
MGMT 0004: Work, Power and Inequality
MKTG 0001: Viral Marketing
MKTG 0002: Consumer Behavior

144

WHARTON EMBEDDED PRE-BACCALAUREATE PROGRAM

Through our Embedded Pre-baccalaureate Program, Global Youth partners with organizations that work toward inclusivity in education, such as Wharton’s Coalition for Equity and Opportunity (CEO), Heights Philadelphia (formerly Steppingstone Scholars), and the National Education Equity Lab, to bring online college credit-bearing courses to high school students in historically underserved communities. This year, we reached 1,414 students nationwide through Embedded Pre-baccalaureate, and 106 students from Philadelphia public schools.

In addition to our flagship 10-week Essentials of Personal Finance Embedded Pre-bacc course, led by Wharton professor David Musto and supported by Wharton’s Stevens Center for Innovation in Finance, we’ve expanded our course offerings to include Grit Lab 101, a collaboration with the School of Arts and Sciences. Professor Angela Duckworth guides students through two main objectives: 1) to teach cutting-edge scientific discoveries about how to foster passion and perseverance for long-term goals, and 2) to help them apply these insights to their own lives — including applying to college.

Embedded Pre-baccalaureate Comes to Campus

- 40 Embedded Pre-baccalaureate students and four teachers from Bronx School for Law, Government and Justice, KIPP D.C. Legacy College Prep, and KIPP D.C. College Prep traveled from New York City and Washington, D.C. to spend a day at Wharton in Philadelphia.
- They met their online personal-finance video instructor, Dr. David Musto, and Wharton CEO Faculty Director, Kenneth Shropshire, among others.
- Students shared their ideas about the strengths and weaknesses of the Embedded Pre-bacc Program.
- They explored campus on a Wharton Scavenger Hunt.

I had butterflies coming here. I’m literally the first person in my family to think about going to college...and this is the second college visit I’ve ever been on. It’s teaching me a way of life.

— Zach W., Washington D.C., USA (KIPP D.C. Legacy Prep), during a trip to Wharton’s Philadelphia campus

1,414 Embedded Pre-baccalaureate students
106 students from Philadelphia

Quick Stats

2022-2023 WHARTON GLOBAL YOUTH • Annual Report
Co-teaching Our Embedded Pre-baccalaureate

Katharine Chambers, a finance teacher at Manchester High School in Connecticut, is one of several co-teachers helping to deliver Global Youth's Embedded Pre-baccalaureate course to her students. Chambers guided her 10 Manchester juniors and seniors, while two MBA students from Wharton connected with them weekly over Zoom to teach the course material. Chambers was face-to-face with the kids and the MBA teaching fellows were online, creating a unique collaboration.

To read more about Chambers' class and co-teaching experience, visit Global Youth's Essential Educator blog.

The course has value in not just the content, but the experience of it all. My students really connected with their teaching fellows and got to see another lifestyle, which is huge for our school as one of the most diverse in Connecticut.

— Katharine Chambers, Manchester High School, Connecticut, USA
WHARTON GLOBAL HIGH SCHOOL INVESTMENT COMPETITION

A Fun and Far-Reaching Financial Education

Beginning in September 2022, more than 7,000 students from 53 countries participated in our most recent Wharton Global High School Investment Competition. Led by teacher-advisors, they worked in teams of four to seven students to learn about teamwork, communication, risk, diversification, company and industry analysis, portfolio management, stock market trading, and other important principles of investing.

Worldwide Global Youth Investors

— Jawaran Investment Team, Kolej Tuanku Ja’afar School, Mantin, Malaysia

We do hope that students from all around the world are able to discover this competition, as it is the perfect chance to apply our theory-based knowledge to reality.
Investment Competition Global Finale at Wharton

On April 21 and 22, 2023, we held our investment competition Learning Day and Global Finale on Wharton’s Philadelphia campus for more than 50 student finalists from around the world, welcoming them to the eight floor of Jon M. Huntsman Hall.

During the Learning Day, Students engaged with Dean, Erika James in a robust Q&A session focused on crisis leadership; studied the latest research on “Sustainable Energy for the World’s Poorest Countries,” with Serguei Netessine, Wharton’s senior vice dean for innovation and global initiatives; and explored the “Power of Purpose” with Wharton School marketing professor, Dr. Patti Williams.

Our Global Finale was held on the eight floor of Huntsman Hall, where the top 10 competition teams went head-to-head, dazzling a prestigious panel of judges with their investment-strategy presentations. Three teams emerged as this year’s global winners. Read more in our newsroom.

Wharton Academic Virtual Environment (WAVE Classroom)

In March 2023, we hosted our Wharton Global High School Investment Competition virtual semifinals in Wharton’s state-of-the-art WAVE classroom. We were among the first to use this brand-new space that enabled our Executive Director Eli Lesser to connect virtually with some 55 students from around the world, interacting with them on a vast screen in a fully connected experience.
We needed to lift each other up when our decisions went the wrong way and celebrate each small win to gain momentum. We needed to learn to let go of failures when the results were out of our hands and listen to one another to understand different points of view. We learned to have fun and the value of money, especially when it was a client that was entrusting us with their financial future. Visit our Global Youth newsroom for the inside scoop from competition students and educators.

— Claudia Cabal, Educator, Carol Morgan School, Dominican Republic, talking about her student investment team, pictured below.
The Minvest Mission

In March 2023, we featured Investment Competition participant Raaga and her classmate Arjun, a Wharton Pre-baccalaureate student, on our Future of the Business World Podcast. Listen to their start-up story, as they work toward making research quick and accessible for young investors.

What matters most in the Wharton Global High School Investment Competition is the team that you’re working with. Having a team with a diverse array of skills will prove to be more helpful than any other factors in this competition.

— Om G., Virginia, USA (Thomas Jefferson High School for Science and Technology), 2022-2023 Global Champions

2022-2023 Investment Competition Semifinals Judges

MEET OUR INSTRUCTIONAL TEAM

We lean on the support from the larger University of Pennsylvania community to bolster our academic programs, help provide our students with the academic support they need, as well as provide them with valuable insights into the college experience. We work with Penn lecturers, undergrads and graduate students to support our various on-campus, online and Pre-baccalaureate programs. We’re thrilled to hear their positive experiences. Read some of them below:

What a privilege to have just wrapped another great summer of class with the Wharton Global Youth Program! Scott Romeika and I taught the Future of the Business World online program to a cohort of more than 350 high school students from around the world, and we were continually amazed by their creativity, motivation and confidence.

Our students learned the basics of design thinking as it applies to business and entrepreneurship, practicing building empathy, iterating on ideas and pivoting when necessary — great skills for business and beyond.

— Ashley Marcovitz, University of Pennsylvania Lecturer, Future of the Business World Program Leader

I had the extraordinary opportunity to serve as a Teaching Assistant for the prestigious Wharton Global Youth Program’s Sports Business Academy.

My primary role was to provide support and guidance to a group of 60 high school juniors and seniors as they prepared for their final projects on a sports-business topic of their choice...The students left an indelible impression on me with their incredible work ethics and their ability to engage in intelligent discussions that rivaled those I experienced last semester in a Sports Business class at Penn.

— Angeludi Asaah, University of Pennsylvania Undergraduate, Sports Business Academy Teaching Assistant

Quick Stats

- 28 instructors hired to teach the 2023 summer programs
- 44 Wharton MBA Teaching Fellows hired to lead our Embedded Pre-baccalaureate courses
- 102 University of Pennsylvania students hired to support our programs as either Teaching Assistants or Community Assistants
The Global Youth articles and podcast transcripts provide unique insight and present narratives from every corner of the world...They have been an incredible source of inspiration for me and other aspiring business leaders. In our Business and Economics Club at school, I’ve shared several episodes of the *Future of the Business World* podcast, and they have sparked meaningful discussion each time.

— Christina K., Shanghai, China  
(Shanghai American School)

**GLOBAL YOUTH EDUCATIONAL CONTENT**

*Written For High School Students and Designed For Discussion*

Wharton Global Youth produces original articles, videos, podcasts and learning materials that introduce high school students and educators to business and finance education, with analysis from experts in the Wharton community. They are written for high school students and designed for classroom discussion.

Each month our content is organized around a new theme to show students the broad scope of business and finance. This year’s themes were:

**2022**

- **September:** Investing on My Mind
- **October:** Future Business Leaders
- **November:** Climate Change and Sustainability
- **December:** The Metaverse Economy

**2023**

- **January:** Brain Science and Business
- **February:** Behavioral Economics
- **March:** Social Entrepreneurship
- **April:** Diversity, Equity & Inclusion
- **May:** The Future of Work
- **June:** Communication and Networking

**Top podcast downloads by location in the last 6 months:**

1) United States
2) Taiwan
3) Kenya
4) Canada
5) India

**Quick Stats**

As you begin the year seeking opportunities for your students, be sure you’re keeping up with Wharton Global Youth Program. I love the Global Youth Program teacher resources. My favorite would be the Explore Business mini-sites. Check it out!

— Gerri Kimble, Business Educator,  
Hoover High School, Alabama, USA  
to her colleagues on LinkedIn
Exploring Business with Wharton

Our Explore Business mini-sites are gateways to conversations, readings, and activities that inspire high school students to think more deeply about timely issues affecting business and society. They are built using engaging conversations between Erika James, Dean of the Wharton School, and industry and academic leaders who discuss cutting-edge business themes and concepts. This year’s theme was Analytics, for which we created the following mini-sites:

- The Analytics of Finance
- Using Data to Protect and Serve
- Sports Analytics: More than a Game

Amplifying Student Voices: Comment & Win Contest

The Wharton Global Youth Program Comment & Win is an annual contest that this year ran from June 5 to August 11. It is designed to encourage high school-age students to discover Global Youth stories, podcasts and videos, and to develop stronger reflective and persuasive writing skills. Four biweekly rounds of competition include a new theme introduced each round.

From Classroom to Boardroom

Cheers to our Educator Advisory Board, a group of high school educators across the U.S. that provides perspective to the Global Youth Program on new initiatives and student activities. This year’s board included:

- Kathleen Brennan, Math Department Chair, Mount Saint Mary Academy, NJ
- Katharine Chambers, Business Educator, Manchester High School, CT
- Gerri Kimble, Business Educator, Business & Entrepreneurship Academy, Hoover High School, AL
- Alex Lamon, Lead Business Teacher, Livingston High School, NJ
- Angela Mangham, Business Education Teacher, Sandy Creek High School, GA
- Becks Olthoff, Math and Finance Educator, Engineering and Science University Magnet High School, CT
- Kathryn Person, AP Microeconomics and Finance Educator, Walter Payton College Prep, IL
- Emanuel Young, Community Partnership Coordinator, Rockwood School District, MO
- Sabrina Zhang, High School Student Representative, Polytechnic School, CA

2023 Comment & Win Competition Snapshot

- **400** Total comments (45% higher than 2022)
- **382** Total commenters across rounds (46% higher than 2022)
- **170** Total unique commenters (30% higher than 2022)

Penn Global Learners

We partnered with the Penn Global Learners Program to support a pilot program that provides students from around the world who have been displaced by war and political conflicts with access to Penn educational opportunities regardless of their circumstances. This year, we helped provide 45 Afghan refugees along with 239 Ukrainian refugees with coursework designed to support career advancement in the global market place. Read more about our partnership.

Championing DEI

Wharton Global Youth featured Wharton’s first Chief Diversity, Equity & Inclusion Officer, Dr. Renita Miller, in our business journal, sharing insights about the importance of her work and the skills that students need for a career in DEI. Read more in our high school business journal.

Building relationships is key to this work. You can’t do it alone. You have to be able to bring people along with you.

— Dr. Renita Miller, Wharton Chief Diversity Equity & Inclusion Officer

Strengthening Connections Across Campus

Global Youth has forged key strategic collaborations across the Wharton and Penn communities. We work closely with faculty, administration, staff, alumni and students to grow our vision for the high school market. Faculty members tailor and teach programs and courses, Wharton students serve as teaching assistants, alumni share expertise and career insight, and faculty-led groups integrate business-education tools into Global Youth instruction. This year’s successful campus collaborations included:

Coalition for Equity and Opportunity (Wharton CEO)

We partnered with Wharton CEO through our Embedded Pre-baccalaureate Program to support the Coalition’s mission of addressing educational inequities and expanding access to economic opportunities. Wharton CEO Faculty Director, Kenneth Shropshire, spoke to 40 high school students in our Embedded Pre-baccalaureate Essentials of Finance course when they visited Wharton’s campus in December 2022.

Penn Office of the Provost

Global Youth contributes learning materials from its online Understanding Your Money certificate course to the University of Pennsylvania Rising Scholar Success Academy, a virtual six-week summer program designed for rising high school seniors across Philadelphia.

Stevens Center for Innovation in Finance

Wharton Professors David Musto and Nikolai Roussanov designed the curriculum for the Wharton Embedded Pre-baccalaureate Essentials of Personal Finance course. Additionally, the Center’s Managing Director Sarah Hammer shared the latest in crypto, blockchain and the Wharton Cypher Accelerator through our summer cross-program lecture series and Global Youth content.

Tangen Hall/Venture Lab

Our summer Product Design Academy worked with Wharton Venture Lab to use the Tangen Hall facilities for innovation and digital design.

Wharton Analytics

Wharton Analytics is an ongoing source of learning for our students, and is often cited in Global Youth’s business journal content. Additionally, its Women in Data Science Conference at Penn provides funds for students to attend our Data Science Academy, taught by Professor Linda Zhao.
Experiencing Entrepreneurship

This year Wharton Global Youth began offering high school educators access to a unique business simulation for their students created by Wharton Interactive. The Entrepreneurship Game is a complete entrepreneurship educational experience that is impactful, engaging and easy to run. Read about a group of high school students who have played the Entrepreneurship Game.

This actually gives high school students the experience of what it’s like to work in a business. They have to make real-time decisions, respond to these businesses’ changing conditions, and learn how to work together in a team.”

—Angel Cottrell, Entrepreneurship Instructor, Kern High School District, California, USA

Wharton Interactive
Wharton Interactive simulations provide fun and interactive experiences during both our online and in-person programs. This year, we were able to offer our students the following educational simulations:
• BlueSky Ventures Game
• The Saturn Parable

Wharton MBA Program
MBA Teaching Fellows helped lead our embedded Pre-baccalaureate courses and serve as instructors in summer programs.

Wharton Neuroscience
Through our content, we provided a learning opportunity for high school students with insight from Executive Director, Elizabeth “Zab” Johnson. Additionally, Professor Michael Platt delivered a cross-program lecture to some 300 students attending our summer programs.

Wharton Online
Wharton Online hosted our online programs on its Canvas instance, as well as many of our videos on its Kaltura account.
Wharton Office of the Dean
Dean Erika James supported students in our high school programs, speaking to them during our Investment Competition Learning Day and delivering a cross-program lecture on crisis leadership.

I have extreme confidence in our generation of youth to help us work through society’s challenges. I listen to you, I talk with you, and I hear how you care about these matters. And at a very early stage in your life, you’re already trying to be problem solvers in all of these things. If you continue with the same values that you have, we’re going to be in really good shape.

— Erika James, Dean of The Wharton School

Wharton Production
We regularly worked with Wharton Production to help produce our online video glossary and Future of the Business World podcast.

Wharton Research Data Services (WRDS)
WRDS has been an ongoing source of data and support for our Wharton Global High School Investment Competition.

Wharton’s San Francisco Campus
With the help of Wharton’s San Francisco leadership, we ran two successful sessions of our on-location program, Startup and Innovation Culture.

Wharton School Press

Wharton Undergraduate Division
The Wharton Ambassadors hosted admissions workshops for our students and helped advise our annual Investment Competition. We hired undergrads as teaching assistants for the summer and academic year programs.

The Power of Education
In March 2023, members of the Global Youth team traveled to Singapore to attend the 55th Wharton Global Forum, a two-day event that brings together approximately 700 Wharton alumni and business leaders to explore the most critical issues facing businesses throughout the world. The Global Youth team members were able to share our variety of high school business-education initiatives to an international audience of attendees, who shared a commitment to the power of education and lifelong learning.
ALUMNI COLLABORATIONS

We regularly partner with Wharton External Affairs to identify alumni who are interested in engaging with our high school audience, serving as clients or judges for our annual Investment Competition, contributing valuable perspectives to our business journal content, participating in our summer Global Youth Meetup, and promoting our programs among Wharton alumni clubs around the world. This year we collaborated with 28 Wharton alumni! Read more about our collaborations below.

I led an MBA-level storytelling workshop for the Global Youth Meetup. Despite a full day of classes, our students showed up ready to engage, learn, challenge, and grow. Many are working on impactful projects, from the environment to socially conscious fashion. By including these young minds early, Wharton is redefining “higher ed” for the future global workforce.

— Kashif Ali, WG’01, Founder of OnceUpon

When Global Youth first reached out to me about potentially being a client for this year’s competition, I was quite positively surprised. It brought back some fond memories of my time at Wharton, particularly the role of these case competitions in my learning journey...I took away a level of intellectual curiosity. Please stay curious! Ultimately, all experiences in life are only going to happen once. Years from now, you will look back at this and really appreciate what you learned.

— Peter Wang Hjemdahl, W’19, 2022-2023 Investment Competition client case study

As Wharton graduates and parents, we’ve witnessed the transformative impact of the Wharton Global Youth Program on young minds. Our children loved participating in Global Youth programs, experiencing personal growth and forging global friendships while learning from renowned Wharton professors. Through programs like Essentials of Finance, LBW, and M&TSI, students acquire essential business skills, collaborate effectively, engage with industry leaders, and cultivate innovative business ideas. They leave with the confidence to pursue business careers and recognize Wharton’s excellence for a strong career start.

Volunteering for the program allows us to evaluate the work of these talented students using real-world industry perspectives and provide useful feedback to them. We’re committed to ongoing volunteering and encourage other Wharton alumni to join us.

— Jean and Patrick Gannon, WG’97
With colleges increasingly making SATs and high school GPAs optional, the focus during the admissions process is shifting toward extracurricular activities. Participation in Wharton Global Youth Program offers students a way to get noticed and a way to prepare. Wharton quickly became the largest provider of business education to high school students, and we continue to see huge potential in offering our programs in Philadelphia and other locations domestically and internationally, as well as online. True life-long learning starts early and never stops!”

— Serguei Netessine, Senior Vice Dean, Global Initiatives & Innovation The Wharton School
